ICMST2025

International Conference on Movement Science and Technology

November 28-30, 2025

Tokyo University of Science
Noda Campus (Building 7),
6th Floor, Auditorium.

Paper Submission Deadline
July 31, 2025

Keynote speakers

Dr. Todd Pataky
Kyoto University

Dr. Hélène Pillet
Arts et Métiers ParisTech

Dr. Chih-Hsiu Cheng
Chang Gung University

Dr. Ahn Jooeun
Seoul National University

Congress website

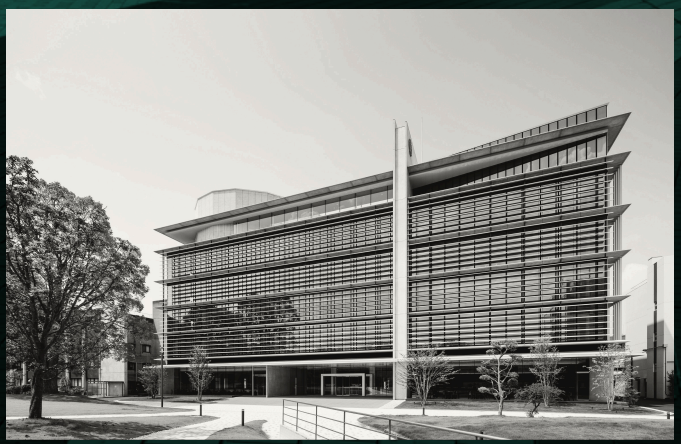
Abstract submission

International Conference on Movement Science and Technology

Join us at the International Conference on Movement Science and Technology (ICMST) 2025 at Tokyo University of Science. Explore cutting-edge research, innovations, and interdisciplinary insights in movement science, biomechanics, and technology with global experts.

Novmber 28-30, 2025

Tokyo University of Science
Noda Campus (Building 7),
6th Floor, Auditorium
2641 Yamazaki, Noda, Chiba
278-8510, Japan



HOSTED BY

Dr. Hiroshi Takemura

Tokyo University of Science

List of Topicss

- Artificial Intelligence in Motion Science
- Augmented Reality Technology and Applications
- Wearable Technology
- Falls and Gait Balance Control
- Cognitive Function and Dual-Task Gait
- Clinical Movement & Classification
- Foot, Ankle, and Shoes
- Computer Modeling and Simulation
- Devices and Novel Applications
- Data Science in Motion Analysis
- Imaging Analysis
- Biomechanics of Human Movement
- Kinematics and kinetics of movement
- Computational biomechanics for injury prevention
- Rehabilitation Technologies
- Robotics and exoskeletons for rehabilitation
- Virtual reality for physical therapy
- Sports Science and Athletics
- Enhancements in training and performance analysis
- Injury prediction and prevention in sports
- Human-Computer Interaction in Movement Science
- Interfaces for motion analysis systems
- User experience designs for AR/VR aplications
- Ethics in Movement Science Technology
- Privacy concerns with motion data
- Ethical implications of AI in clinical settings
- Animal Locomotion
